Our Customer Success Stories

"We entrusted Opus Global Group to manage our mission critical IT PMO. With OGG's IT specialist, we were able to enhance our IT service delivery model with higher utilization rates while significantly reducing our total cost of ownership!"

Vice President, Fortune 1000 CPG Company

"The OGG Business Advisors created unique insights into our technology valuation and integration strategies for our M&A pre/post merger. Our target merger involved complex strategic valuations of financial significance that could have negatively impacted our capital return on investment."

Vice President, Premier Mid-Market Retailer

Opus Global Group (OGG) is a management consultancy firm specializing in the delivery of service solutions in the domains of IT Strategy, Management Consulting, Business Performance Management and Advisory Services. Together with our clients and partners, we design long-term strategies to achieve the most advantageous high impact enterprise performance.

PRODUCTIVITY

OGG designed a PMO of global business units of operations and technology teams in conceiving and implementing intellectual software, BPM, BPO and data integration for four worldwide Telecommunications manufacturers; and as a result of this raised the bar of manufacturing design times cut by 50%, sales and distribution production efficiency by 40% per EVA with an immediate cash positive impact of 15% on the four companies P&L statements within 2 financial quarters.

COST REDUCTIONS

OGG developed higher proficient operational procedures with ISO 9002 employee workflow and business optimization; reduced total operational costs by 35%, including a major 75% reduction in inventory carry discrepancies, future revenue orders unfulfilled due to ERP supply chain programs decreased from 40% to 5% within 12 months. The business results directly enhanced the revenue profit gains of over 20% the next quarter.

PROFITS AND SAVINGS

OGG designed, developed and implemented a brand new IT application module Return Materials Authorization (RMA) to manage the specifications, blueprint, and implementation and production analysis for the entire Materials Management divisions. The recouped savings and labor costs were over \$400,000 in payroll reductions. CPE-cost per employee per man hour was decreased by full automation of the RMA through strategic partnerships worldwide, creating a global net value of per employee, per transactions savings estimated at net operations dollars of \$2MM. OGG reduced the amount of total inventory costs of MRO operations by 50% while streamlining the OEM to distributor channels of communications and efficiency with collaborative and innovative business consulting.

"It gives me great pleasure to tell you how much I have enjoyed working with Opus Global Group and the wonderful team. I am impressed with the effort you and your team made to understand our IT problems and to design a solution. Your team helped me understand the issues and the proposed solution."
